Education

Azerbaijan State Economic University — Design

📅 Sep 2020 - June 2024

Experience

Azerbaijan Global IT Technology — Digital Specialist

📅 Aug 2025 - Oct 2025

Design IT Support Troubleshooting

- Delivered visual assets for digital projects while acting as an informal on-site tech contact for the team.
- Provided internal technical support for staff, resolving software glitches and hardware-related issues.
- Collaborated with the IT department to report and help resolve office-wide connectivity and software issues.

Just for Fun Gaming Club — Support / System Administrator 📅 Oct 2025 - Dec 2025

Hardware Networking Windows Pancafe Incident Management

- Performed diagnostics, repair, and assembly of high-performance gaming stations (50+ units).
- Configured and optimized local area network (LAN) for low-latency performance and stable connectivity.
- Managed OS deployment and software updates using imaging tools and manual configuration.
- Acted as the first point of contact (L1) for all technical inquiries, resolving real-time tech failures.

Design Studios / Freelance — Graphic Designer

📅 Jan 2023 - Present

Adobe Creative Suit Figma

- Focused on visual communication and layout design for various digital projects.

Featured Project

Self-hosted Services Automation

Docker Ansible Vaultwarden Cloudflare Linux Wireguard

Built and currently maintaining a self-hosted microservice infrastructure on a remote VPS to automate workflows and manage personal data securely. [🔗 github.com/oism1774](https://github.com/oism1774)

- Container Management: Administering services (Vaultwarden, Obsidian Sync) via Docker.
- Secure Access: Configured Wireguard VPN for encrypted remote management.
- Infrastructure as Code: Ansible for automatic and secure way to deploy, change or get data from the server

Hardware Restoration & Component Migration

iPhone SE (2020) Display Swap: Successfully performed a complete display assembly migration between two devices.

- Preservation of Native Features: Ensured full functionality of Touch ID and True Tone
- Precision Engineering: Demonstrated high attention to detail in internal cable management
